

2.4

Test DataOffset at operating voltage +0.2 V  
(no source present)

| Energy<br>KeV | Count Rate<br>C/S | Time<br>Constant<br>micro sec | FWHM<br>eV | FWTM<br>eV | Notes |
|---------------|-------------------|-------------------------------|------------|------------|-------|
| 5.9           | 1k                | 8                             | 185        |            |       |
| 122           | 1k                | 8                             | 490        | 950        |       |
|               |                   |                               |            |            |       |

Efficiency \_\_\_\_\_ % (for 1333 KeV  $^{60}\text{Co}$  line relative to a 3 x  
inch NaI, 25 cm source-detector distance).

Peak/Compton ratio \_\_\_\_\_.
